

CF006b

soffit under open suspended concrete slab

Dow Tuff-R or Dow Thermax LD

| | |
|---------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Location: | Underside of concrete slab and beams. (White/foil facing down). |
| Material Insulation: | Dow Tuff-R or Dow Thermax LD. |
| Total R-Value: | [Complete] |
| Installation Method Surface Preparation: | All surfaces must be clean, sound and free of dust and contaminates. |
| Adhesive | Apply Dow Tuff-R/Dow Thermax LD adhesive in daubs the size of a 10 cent coin on the surface of the insulation @ 300mm to 400mm centres. Press insulation board into position. |
| Mechanical Fixing | Apply Dow Tuff-R/Dow Thermax mechanical Fixings (two per 2235 x 1200mm board). Apply 75mm wide reinforced foil tape to all joins. Where insulation board is exposed to the elements, then foil tape must secure the edge of insulation board. |
